IQAC

Vision: To formulate, introduce and regulate a concrete plan of action for the progress of the institution and the holistic development of the students.

Internal Quality Assurance Cell (IQAC) of RKMV ensures a culture of commitment and quality in the institution. The IQAC was constituted in accordance with the norms of NAAC and UGC Rules in the year 2010. Since its establishment, IQAC has been actively participating in the planning and monitoring of the college's Quality Assurance and Quality Enhancement initiatives. It acts as the advisory body of the institution which not only formulates and plans but also monitors the proper execution of the plans and the programmes. The IQAC has been relentlessly working in the direction of providing congenial and learner-friendly atmosphere to students, teachers and encourages research oriented eco-system in the campus. Keeping this in view the maiden IPR workshop has been organized.

Patron:

Dr Anurita Saxena
Principal RKMV

Intellectual Property Rights (IPR) provide creators and innovators with exclusive rights to their inventions, literary and artistic works, designs, symbols etc. This gives incentive for further innovation, creativity, and economic growth. The broad components of IPR include - Patents, Copyrights, Trademarks, Trade Secrets, Geographical Indicators and Industrial Designs.

Intellectual Property Rights (IPR) are designed to-

- Balance rights and access, particularly in the fields of healthcare and education.
- Enforce and comply IPR laws and regulations, both domestically and internationally.
- Harmonize IPR frameworks across different jurisdictions.

It provides creators with incentives to invest time, effort, resources into developing new ideas, products, services, while ensuring fair competition and at the same time protect rights of the creators. The training workshop on IPR becomes meaningful for our fraternity as most of us are engaged in research activities and need to protect our works and rights.

Additionally, IPR plays a crucial role in economic development, as it encourages investment in research and promotes the transfer of technology and knowledge.

Therefore, it becomes essential to maintain an effective and equitable IPR regime in the modern world to address the challenges of balancing rights and access, enforcement and emerging technologies

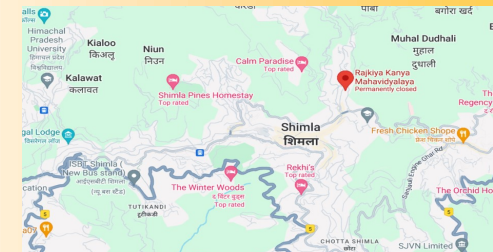

This Training-cum-workshop will try to target more than 150 teachers, researchers and scholars in and around Shimla, in a hybrid mode. The resource persons will try to focus on all the aspects of IPR with the following objectives in mind-

- To provide comprehensive knowledge of Intellectual Property Rights.
- To make the creators and inventors aware of their rights.
- To sensitize and encourage participants for further intellectual enhancement by making them confident, enabling them to reap commercial benefits and satisfy their intellectual hunger.

Theme :
INTELLECTUAL PROPERTY RIGHTS (IPR)

- SUB-THEMES:**
- Patents
 - Copyrights
 - Trademarks
 - Trade Secrets
 - Geographical Indicators
 - Industrial Designs

Rajkiya Kanya Mahavidyalaya (RKMV), is a premier government girls' institute of education in the state of Himachal Pradesh. Situated on Elysium Hill, this institute is, at present, nurturing and honing more than 3500 young minds with more than 80 faculty members. Focusing on their holistic growth the college gives them ample opportunities to grow, develop and excel in life. We are offering Bachelor's degree in Humanities, Sciences, Commerce, and Vocational courses. Self-financed courses like BCA, B.Sc in Microbiology and Biotechnology are also being run by the college. Efforts are always being made by the college to live up to its motto, "**Sa Vidya ya Vimuktye,**" 'Knowledge is that which liberates.' It motivates us in our quest for perfection, liberating us from the shackles of ignorance and darkness, leading us to the path of self-realization and growth.

The College, located on the circular road is a ten minutes' walk from the famous Ridge and can be reached by local buses plying frequently on the Circular road (Cart road).
